iComm phone app to help special needs children and pre-speech toddlers communicate

The iComm offers children a communication system using both written and spoken words and personalised pictures and is the only communication device on the app store that has a free version. The iComm allows you to add your own pictures or sound and children become much more engaged and motivated to communicate because they recognise the pictures and sounds you add. All content is presented in easy to find categories, with 9 categories available in the free version.

The full version provides many additional features including 20 categories, audio files and more picture storage. With this version, children can learn about shapes, colours and letters with the content provided and there is a category which allows you to record your child's favourite songs or nursery rhymes.

Basic version: FREE. Full version £15.99 www.miasapps.com

Summer Holiday Swimming Courses

Improve your Childs water confidence or stroke technique

Join us over the summer holidays for a weeklong course, every day for half an hour

Children must be over the age of 3 years. We teach individual lessons but if you have a friend who is the same level then there's twice as much fun.

All children will be given a FREE A3 award poster to take home and colour in (which hopefully keeps them occupied too?)

Lessons are held at the Esporta Health Club, Swiss Cottage

Call 020 7644 2472 for more details, or info@aquanautsswimmingschool.com
